		Responses: [E] Excellent=5 [VG] Very Good=4 [G] Good=3 [S] Satisfactory=2 [NS] Not Satisfactory=1						

Question: What did you like most about this course?

Response Rate: 100.00% (6 of 6)

- I enjoyed how the movie browser assignment was split into two, it really helps break down the load and helped me feel less overwhelmed. Overall, I have nothing but good things to say - typical Tom class!
- Great approach in doing back end. The best part is how to make your website secure and hack-free..
- The entire course was good, long but still a good course. Everything we learned was extremely beneficial for our future careers.
- Everything.
- javascript is interesting, an relatively simple to execute
- Very informative and learning

Question: How could the course be improved to be of benefit to future students?

Response Rate: 100.00% (6 of 6)

- I would have liked to do the rating assignment in class with Tom. I learn better and I am used to having code explained to me. Now I just feel more lost. Other than that, no problems!
- I would love to learn more than is taught. Some touch to different functionality, like E-business is a big game these days . Doing some

- 2 work on how to do pay pal and adding cart to the web site ..
- 3 Having a four hour course is very long. Instead if the course was 2 to 3 hours long and given twice a week this would benefit students.
- 4 Have more of an advanced course for students who want a challenge.
- 5 nobody likes working with databases and servers, but I guess it is necessary
- 6 It is already fine

Faculty: BRADLEY, THOMAS

Question: What did you like most about the course professor?

Response Rate: 100.00% (6 of 6)

- 1 Tom will be Tom, I really think he's in the right mix of professions, would have him as my professor for all my classes if I could! PLEASE, just develop your own web developer program already, thanks!
Most energetic, helpful , ready to explain things even out of the program scope.
- 2 Experiment things and bring current and most effective solutions to all the problems.
- 3 The professor was always available when the students had any questions. He was also very patient with all the students.
- 4 Thomas is the best
- 5 he is knowledgeable
- 6 Very helpful and knowledgeable

Faculty: BRADLEY, THOMAS

Question: What, if anything, could the professor do differently to be of benefit to future students?

Response Rate: 100.00% (6 of 6)

- 1 Just need a lab class or something to get that extra help.
- 2 Doing well . Keep it up.
- 3 Thomas did a good job! Nothing really needed improving.
- 4 Nothing at all
- 5 keeping up with the code copying is tough, a little knowledge on how to make snippets could be usefull
- 6 The course is going just fine.
